HelloQ Getting Started Guide

Installation, setup, and everyday use of the HelloQ app

Installing HelloQ

HelloQ is available for both Android and iOS devices. Installation takes only a few minutes and does not require a credit card.

- Android: open the Google Play Store, search for "HelloQ", and tap Install.
- iOS: open the App Store, search for "HelloQ", and tap Get.
- Minimum requirements: Android 8.0 or later, or iOS 14 or later.
- The app is free to download. No payment information is required to install it.

Creating Your Account

After installing HelloQ, open the app and tap "Get Started Free" to create your account.

You will be asked to verify your phone number or email address before your profile becomes visible to other members. This verification step is part of HelloQ's safety system and helps keep the community authentic.

- Enter your phone number or email and confirm the one-time code sent to you.
- Choose a display name. Your legal name is never shown to other members.
- Set your pronouns, gender identity, and orientation from the identity fields provided.
- Add at least one profile photo to continue.

Building Your Profile

A complete profile helps Spark Intelligence find better matches for you. HelloQ offers over 30 identity options so you can describe yourself accurately.

- Fill in your relationship intentions, monogamy style, and how long you have been out.
- Add interest chips that describe your hobbies and passions.
- Complete the AI Astrology card if you would like it included in your profile.
- Watch the profile completion ring at the top of the Profile tab; a fuller profile generally leads to better match quality.

Finding and Messaging Matches

The Flame tab is where you browse and swipe on other members. Each profile shows identity fields, pronouns, gender, intentions, interests, height, and location.

On the Free plan you get 10 likes per day and 1 Super Like. Once you match with someone, you can start chatting in the Chats tab. Every match is verified, and an AI sparkle button in the chat input can suggest conversation starters if you are unsure what to say.

- Tap the heart icon to like a profile, or the star icon to send a Super Like.
- Use the X icon to pass on a profile.
- Premium members can undo their last swipe an unlimited number of times.
- Use the Explore tab to see members near you on a map view.

Staying Safe on HelloQ

Safety tools are free for every member, with no subscription required, and are always available from any profile or chat screen.

- Tap the three-dot menu on any profile or chat to Block or Report a member.
- HelloQ provides 24/7 moderation protection on all reports submitted.
- Your approximate location is shown on the Explore map; your exact location is never shared.
- You can delete your account and all associated data at any time from Settings.

Getting More Help

This guide covers the basics of installing and using HelloQ. For full details on pricing plans, AI features such as Spotlight AI Insights and Mirror, and HelloQ's complete privacy commitments, visit the HelloQ website.
